VASCULITIS ACTIVITY SCORE 2003

O Tick box **only** if abnormality represents active disease (use the Vasculitis Damage Index, VDI to score items of damage). If there are no abnormalities in a system, please tick the "None" box

☐ **If all** the abnormalities recorded represent smouldering/low grade/grumbling disease, and there are no new/worse features, please remember to tick the box at the bottom right corner

1. Subject ID: ☐☐☐☐☐

2. Clinic ID: ☐☐☐☐☐

3. Date Form completed: ☐☐ / ☐☐ / ☐☐ (day / month / year)

4. Investigator:

	NONE	ACTIVE DISEASE
1. General	O	
Myalgia		O
Arthralgia or arthritis		O
Fever >= 38.0 C		O
Weight Loss >= 2 kg		O
2. Cutaneous	O	
Infarct		O
Purpura		O
Ulcer		O
Gangrene		O
Other skin vasculitis		O
3. Mucous membranes/eyes	O	
Mouth ulcers/granulomata		O
Genital Ulcer		O
Adnexal inflammation		O
Significant proptosis		O
Red eye (Epi)scleritis		O
Red eye conjunctivitis / blepharitis / keratitis		O
Blurred vision		O
Sudden visual loss		O
Uveitis		O
Retinal vasculitis /retinal vessel Thrombosis / retinal excudates / Retinal haemorrhages		O
4. ENT	O	
Bloody nasal discharge/nasal Crusts/ulcers and/or granulomata		O
Paranasal sinus involvement		O
Subglottic stenosis		O
Conductive hearing loss		O
Sensorineural hearing loss		O
5. Chest	O	
Wheeze		O
Nodules or cavities		O
Pleural effusion/pleurisy		O
Infiltrate		O
Endobronchial involvement		O
Massive haemoptysis/Alveolar Haemorrhage		O
Respiratory failure		O

	NONE	ACTIVE DISEASE
6. Cardiovascular	O	
Loss of pulses		O
Valvular heart disease		O
Pericarditis		O
Ischaemic cardiac pain		O
Cardiomyopathy		O
Congestive cardiac failure		O
7. Abdominal	O	
Peritonitis		O
Bloody diarrhoea		O
Ischaemic abdominal pain		O
8. Renal	O	
Hypertension		O
Proteinuria >1 +		O
Haematuria >= 10 rbc/hpf		O
Creatinine125-249 µmol/l		O
Creatinine 250-499 µmol/l		O
Creatinine >= 500 µmol/l		O
Rise in creatinine > 30 % or Creatinine clearance fall > 25%		O
9. Nervous System	O	
Headache		O
Meningitis		O
Organic confusion		O
Seizures (not hypertensive)		O
Stroke		O
Cord lesion		O
Cranial nerve palsy		O
Sensory peripheral neuropathy		O
Motor mononeuritis multiplex		O
10. OTHER	O	
		O
		O
		O
		O

PERSISTENT DISEASE ONLY :
Tick here if **all** the above abnormalities are due to low grade grumbling disease and not due to new/worse disease ☐
